# GENERAL BODY OF INFOPARKS – KERALA

Kerala's IT endeavours have come a long way since gaining traction in the tail-end of the nineties. IT parks across Kerala have been instrumental in transforming the outlook of regular cities where they're situated into multi-faceted hubs. They have facilitated the influx of human resources, appending of infrastructure and improved the overall quality of life for citizens. In this regard, Infopark has been a monumental success story only a few have been able to match let alone surpass.

The three of the major IT parks in Kerala — Technopark, Infopark and Cyberpark- have caused tectonic shifts in the perception of Kerala as an IT hub. In the near future, their combined productivity and potential, will catapult Kerala into the forefront of India's IT revolution. Another noteworthy aspect of the government's support of IT sector is the entrepreneurship friendly approach. Additionally, there is concerted effort from various government agencies with the goal to convert Kerala into a digitally empowered society and thereby pave the way for sustainable economic growth. Also, to ensure optimum reliability, transparency and accessibility, actions have been taken to provide all public services to citizens through electronic mode. To support this initiative, various digital empowerment campaigns will be run with the support of technological organisations, students and academicians.

Infopark has accomplished full-fledged development of its first phase in just over ten years while IT parks normally take anywhere between 15-20 years to achieve its full potential. The systematic focus on completing the first IT building 'Jyothirmaya' in Phase 2, bears testimony to the fast-track development of IT in the state.

On behalf of this great state and its people, I wish Infopark all the very best. May it grow and shine and be a monument to the spirit of Kochi.

# BOARD OF GOVERNORS OF INFOPARKS – KERALA

Ever since its inception in 2004, Infopark was intended to be one of the foremost IT parks in the country. Now more than a decade later, the scope of its operations and potency of its human resources have exceeded all expectations, transforming Kerala as a digitally empowered state. This year, as Kerala's 2017 IT policy is formulated, various initiatives are meticulously devised. They are meant to afford maximum probability in attaining the arduous goal of transforming the state into a digitally empowered haven for investors and IT professionals.

As a part of this grand scheme, IT parks will function as facilitators for their integration into the digital realm. A focused programme will be instituted to enable the inclusive growth of the state by leveraging a wider ecosystem including government, public, corporates, academia and IT park personnel. With the proliferation of quality human resource and improvement in infrastructural capacity, IT Parks in Kerala could develop into prime destinations for regional and foreign investment.

Kochi, along with Infopark & Innovation zone, will evolve to be a brand identity in the coming years for the IT/ITeS sector and will be a centre of excellence for the emerging technologies like IOT and Analytics. The multimodal transportation system with Kochi Metro, CIAL and Water Metro will open up tremendous opportunities for software application development. Smart Kochi initiative itself will become another prototype for developments of future technologies.

Phase 2 of Infopark is designed to develop 80,000 job opportunities and our new IT Building 'Jyothirmaya' is a stepping stone towards that goal.

I wholeheartedly wish the entire management, employees and associates of Infopark all the success in their future endeavours.

# **CEO's REPORT**

**Shri. Hrishikesh Nair**Chief Executive Officer, Infopark

Infopark has witnessed a significant development in the infrastructure space and a remarkable and glorious landscape has evolved contributing to the economic development of the state and towards the IT sector in Kerala. It is with great pride that we launched 'Jyothirmaya', the 1st Govt. IT building of 4 lakhs sq.ft. in the Infopark Phase 2 which was Inaugurated by the Hon'ble Chief Minister. A jewel in the Infopark crown, Phase 2 is being developed as an eco-friendly green park campus with 'walk to work' township concept in 8 million sq.ft. built up, along with convention centres, shopping complexes, commercial spaces, school, recreation & entertainment centres.

Infopark was able to complete the entire infrastructure of Phase 2 by FY 2016-17 — which include roads, power station, water lines, compound wall etc. Cognizant has already started operations while Trans Asia building construction is almost complete. As of now, renowned international companies like UST Global, Trans Asia, Claysys Technologies, and Media Systems have signed agreements for setting up their campuses along with Private Co-Developers.

During the FY 2016-17, we have crossed 6.5 million sq.ft. in built up space and increased our company count to 328. The employee strength also increased to 32,800, though software export revenue decreased due to global economy melt down. World Trade Center building at Phase 1 was inaugurated by The Hon'ble Chief Minister, which was occupied mostly by MNCs, KPMG and Xerox.

Financial status of Infopark in nut-shell is as follows:

Revenue has increased 8% to Rs. 40 cr, while expense increased to Rs. 26 crores. Net Surplus after Fin cost and bank loan interests came up to Rs. 17 crores, while after depreciation of Rs. 26 crores, we clocked an Expense over Income of Rs. 8.5 crores.

(For detailed analysis, financial audit report is attached)

In this FY 2017-18, Infopark is planning to start construction of a multi-purpose business accelerator building of 50,000 sq.ft. in 1.1 acres of land to provide IT employment to the tune of 600 as well as provide recreational facilities for IT employees. Infopark is also converting the non-operating guest house building as our Park Centre, thereby ensuring proper utilization of the building and creation of additional rental income by leasing out the existing office space. With the new IT policy, emerging technologies and entrepreneurship development will be the focal regions. I am sure this will give a fresh impetus to the IT companies there by creating new job opportunities.

I would like to thank the Government for all the support, and wish the team all the very best in the coming years.
